PREMATURE EJACULATION

CAUSES & NATURAL REMEDY

Dr. Bestman Anyatonwu

MEANING

This is a problem of muscular gland surrounding the urethra at the base of the bladder in a man, characterized by inability to discharge urine.

CAUSES

Prostate affliction may be acute or chronic. Acute prostatitis produces severe and sudden symptoms, which clear up rapidly. Chronic prostatitis may cause mild symptoms for a long time and it is difficult to treat. Prostate problems are most common in men of between 30 – 50 years who are sexually active and brings the starting pommel of this problem. From 60 – 80 years it becomes very difficult to handle.

The cause is often a bacterial infection, which has spread from the urinary tract to the prostate gland. But it can also be caused by a sexually transmitted disease. The inflammation tends to block off the urine flow and these cause bacteria to build up.

Recurrent premature ejaculation can be a frustrating problem; repeated episodes may make a man anxious about his performance and possibly result in erectile dysfunction.

HERBAL REMEDY

Libracin herbal alternative is the answer like:
